2. Personnel. It is still too early for them to have established the project group. They are still considering [] to head it up. Others being considered for the group are:

STAT

[] whom I know to be a competent electrical engineer.

STAT

[] who is a new man [] He comes from Rochester Institute of Technology (R.I.T.).

STAT

STAT

[] who is also a graduate of R.I.T. He is reportedly a good experimentalist.

STAT

STAT

[] is still dickering with [] on employment, but [] believes they have reached agreement. He has an A.B. from Stanford and an M.S. from M.I.T. in Chemical Engineering. [] thinks highly of him. I haven't met him and don't know him.

STAT

STAT

The talents of the people on the job are what will make it a success or failure.

STAT

3. [] is writing a tutorial paper on Spectrazonal Photography. He hopes to complete it by the end of August. It is partially based on a concept that I came up with about three years ago. Wally is particularly interested in applying spectrazonal photography to partially-automatic screening. I mentioned George T.'s interest in spectrazonal photography and automatic screening. Wally would like to discuss his ideas with George at the first opportunity.

4. [] has been going through a forced draft expansion of their engineering for the past six months. They have almost doubled the engineering work force since January, 1964. They have over 200 people in engineering, including about 40 temporary people. In addition, they have undergone a Division Management and an Engineering Management reorganization. The star of the [] is certainly rising and there is plenty of activity.
